WORK EXPERIENCE

Bates White

Washington D.C.

Economic Consulting Intern

June 2026 – Aug. 2026

- Collaborating with economists, senior consultants, and case teams to deliver research and analysis to support client outcomes
- Conducting quantitative economic analysis using Stata to develop damages models, evaluate impact, and assess liability in mass tort and class action litigation

State Farm

Bloomington, IL

Operations Consulting Intern

May 2025 – Aug. 2025

- Generated strategic recommendations for cross-functional teams through qualitative research and data-driven modeling, lowering costs by \$500K+
- Built process maps and dashboards with project management tools to support decision-making and reduce lead times
- Performed quantitative risk and performance analyses in Excel, tracked KPIs to identify operational inefficiencies, and optimized resource allocation to support process improvement decisions

Cornell University Press

Ithaca, NY

Metadata Analyst Intern

Aug. 2024 – May 2025

- Cleaned and interpreted datasets for 750+ publications, improving metadata accuracy and online visibility for viewers
- Partnered with the Marketing team to enhance accessibility for customers and enable better insights for digital strategy

Cornell University Department of Mathematics

Ithaca, NY

Calculus Teaching Assistant

Aug. 2024 – Dec. 2024

- Hosted weekly office hours for 50+ students, graded assignments, and provided feedback for advanced calculus course
 - Facilitated group problem-solving to promote a deeper understanding of course concepts and built a collaborative learning environment for students from diverse backgrounds
-

LEADERSHIP & EXPERIENCE

Cornell Global Research and Consulting

Ithaca, NY

Project Lead & Consultant

Feb. 2024 – Present

- Led a 6-person team to advise international MedTech startup Meticuly on market expansion strategies by performing primary research and creating an Excel dashboard with 30+ potential partners
- Managed an 8-person team to help Owala increase brand awareness among college students through a new ambassador program, large-scale campus events, and data-driven reach analysis
- Provided recommendations and trend analyses for nonprofit clients, improving outreach efficiency and long-term growth

Scholars of Finance

Ithaca, NY

Financial Analyst

Feb. 2024 – Feb. 2026

- Conducted financial modeling, company valuations, and market research for fintech and healthcare companies
 - Delivered investment presentations to foster analytical discussions on emerging trends in fintech, banking, and AI industries
-
